ERRATUM

Validation of prognostic models in intensive care unit–treated pediatric traumatic brain injury patients

TO THE READERSHIP: An error appeared in the article by Mikkonen et al. (Mikkonen ED, Skrifvars MB, Reinikainen M, et al: Validation of prognostic models in intensive care unit–treated pediatric traumatic brain injury patients. *J Neurosurg Pediatr* [epub ahead of print June 7, 2019; DOI: 10.3171/2019.4.PEDS1983]).

In the *Methods* section of the abstract, the final sentence incorrectly stated the outcome for a favorable Glasgow Outcome Scale score as 3–5. The correct GOS score is 4–5. The corrected sentence is shown below.

The primary outcome was 6-month functional outcome (favorable outcome defined as a Glasgow Outcome Scale score of 4–5).

The article has been corrected online as of July 19, 2019.

Era D. Mikkonen, MD

Helsinki University Hospital and University of Helsinki, Finland
