Inadequacy of 3-month Oswestry Disability Index outcome for assessing individual longer-term patient experience after lumbar spine surgery

TO THE EDITOR: We appreciate the publication of our article, "Inadequacy of 3-month Oswestry Disability Index outcome for assessing individual longer-term patient experience after lumbar spine surgery" (*J Neurosurg Spine* [epub ahead of print March 18, 2016; DOI: 10.3171/2015.11.SPINE15872]). On viewing the paper online, however, we noted that one of the departmental affiliations was incorrectly listed as "Orthopedics Surgery" when it should have been "Orthopaedic Surgery," and Dr. Kristin Archer was listed as having only one affiliation when in fact she has two.

The corrected list of authors and affiliations is as follows:
