ERRATUM

Total motion generated in the unstable thoracolumbar spine during management of the typical trauma patient: a comparison of methods in a cadaver model

In the legend of Fig. 1B, the HoverMatt Air-Transfer Mattress was used, not the Airpal transfer system as incorrectly stated. The corrected legend appears here with the figure.

In the Motion Sequences section of the Methods, “HoverMatt” has been updated to “HoverMatt Air-Transfer Mattress” for clarity.

The article has been corrected online as of September 23, 2022.
