Erratum

Discrete cerebral hypothermia in the management of traumatic brain injury

To The Editor: Thank you for publishing our paper entitled “Discrete cerebral hypothermia in the management of traumatic brain injury: a randomized controlled trial. Clinical article” (J Neurosurg: published online February 27, 2009; DOI: 10.3171/2009.1.JNS081320). Unfortunately, we overlooked an error in the references. On page 4, in the Statistical Analysis section, second paragraph, the reference for the computer program and analysis is wrong. Reference 10 points incorrectly to the Fay article. The correct reference is missing from the reference list entirely; it should be: Diggle P, Liang KL, Zeger S: Analysis of longitudinal data, in Oxford Statistical Science Series. Oxford: Clarendon Press, 1994, Vol 13. The other references appear correct on our review, and the prior citation to reference 10 on page 2 is correct in pointing to the Fay article. We wish to inform the readership about this correction.
