ERRATUM

Extent of resection, molecular signature, and survival in 1p19q-codeleted gliomas

TO THE READERSHIP: An error appeared in the article by Garton et al. (Garton ALA, Kinslow CJ, Rae AI, et al. Extent of resection, molecular signature, and survival in 1p19q-codeleted gliomas. *J Neurosurg*. Published online May 8, 2020. doi:10.3171/2020.2.JNS192767).

In the *Results* section of the Abstract, the last sentence was incorrect. The correct sentence appears below.

STR and GTR were independent predictors of improved survival in historically classified oligodendrogliomas (HR 0.83, $p = 0.18$; HR 0.69, $p = 0.01$, respectively) and in 1p/19q-codeleted tumors (HR 0.49, $p < 0.01$; HR 0.43, $p < 0.01$, respectively).

The article has been corrected online as of June 5, 2020.
