ERRATUM

Are parenchymal AVMs congenital lesions?

TO THE EDITOR: We thank you for the publication of our article, “Are parenchymal AVMs congenital lesions?” [*Neurosurg Focus* 37(3):E2, 2014]. Unfortunately, two errors were made during submission of the original manuscript. First, the affiliation for Dr. Carlo Bortolotti and Dr. Carmelo Sturiale was not up to date. It should have been “Department of Neurosurgery, IRCCS Institute of Neurological Sciences, Bellaria Hospital, Bologna, Italy.” Second, Dr. Sturiale’s name was listed with a middle initial (“L.”) when there should not have been one.

The corrected list of authors and affiliations for our paper is the following:

Saul F. Morales-Valero, M.D.,¹ Carlo Bortolotti, M.D.,² Carmelo Sturiale, M.D.,² and Giuseppe Lanzino, M.D.¹

¹Department of Neurologic Surgery, Mayo Clinic, Mayo Medical School, Rochester, Minnesota; and

²Department of Neurosurgery, IRCCS Institute of Neurological Sciences, Bellaria Hospital, Bologna, Italy

We apologize to the editor and readers for this error, and we are pleased to have the opportunity to correct Dr. Sturiale’s name and the name of our institution. The correction was made as of July 1, 2015.

Carlo Bortolotti, MD
Carmelo Sturiale, MD

IRCCS Institute of Neurological Sciences, Bellaria Hospital,
Bologna, Italy
